Dan Wickerham of Adams-Brown Recycling met with the board as the representative to the committee for the Solid Waste Plan revision. Mr. Wickerham discussed generation fees that were established in the beginning that need to be increased or services will need to be decreased. Our fees are lower than most districts in Ohio. Mr. Wickerham’s recommendation is to raise the fees in order to provide services instead of keeping the current fees and reducing services. A majority of the township’s and villages have to approve the revised plan. The fees are something that needs to be decided after the plan is revised and will be addressed by the Adams Clermont Solid Waste District Board for approval. Mr. Wickerham also discussed the recycling compact boxes.
